TWENTY-NINTH ANNUAL REPORT

—OF THE—

State Board of Education,

—SHOWING THE CONDITION OF THE—

Public Schools of Maryland,

—FOR THE—

Year Ending July 31st, 1895.

ANNAPOLIS:
KING BROS., STATE PRINTERS,
1896.

STATE OF MARYLAND.

OFFICE OF THE STATE BOARD OF EDUCATION,

BALTIMORE, December 15, 1895.

To His Excellency Frank Brown,

Governor of Maryland:

SIR—I have the honor to transmit to you the Annual Report of the State Board of Education for the fiscal and school year ending July 31, 1895, with accompanying documents, as required by law.

Very respectfully,

Your obedient servant,

E. B. PRETTYMAN,

Secretary.

76508

REPORT

—OF THE—

State Board of Education.

The following summary, in connection with the accompanying tables, exhibits, in a condensed form, the most important facts connected with the administration of the public school system of the State, for the fiscal and school year ending in the city of Baltimore, December 31, 1894, and in the counties, July 31, 1895.

The several items are compared with the corresponding items for 1893, in the city of Baltimore and for 1894, in the counties:

Number of schools in Baltimore city.....	179	
" " the counties.....	2,154	
Total.....		2,333
Being an increase in 1895 of.....3		
Number of different pupils, city.....	78,275	
" " " counties.....	126,469	
Total.....		204,744
Being a decrease in 1895 of.....102		
Highest number enrolled in one term, city.....	62,023	
" " " counties...	114,207	
Total.....		176,230
Being an increase in 1895 of.....6,051		
Average number in daily attendance, city.....	50,262	
" " " counties....	71,300	
Total.....		121,562
Being an increase in 1895 of.....5,020		

Number of teachers, city	1,626	
" " counties	2,887	
Total		4,513
Being an increase in 1895 of.....195		

Number of months schools were open, city	10	
" " " counties.	8.6	
Average for the State		9.3
Being a decrease of 1-10 of 1 month		

Receipts from all sources, city	$1,132,484 13	
" " " counties	1,216,856 92	
Total		$2,349,341 05
Being an increase in 1895 of...$31,392 47		

Amount paid for teachers' salaries, city	$913,431 60	
" " " counties	816,250 84	
Total		$1,729,682 44
Being an increase in 1895 of...$84,285 61		

Amount paid for building, repairing and furnishing school houses, city	$144,418 82	
Amount paid for building, repairing and furnishing school houses, counties	105,978 38	
Total		$250,397 20
Being a decrease in 1895 of....$36,685 07		

Amount paid for books and stationery, city	$61,463 33	
" " " counties	48,383 03	
Total		$109,846 36
Being an increase in 1895 of...$12,225 87		

Amount paid for rent, fuel and other incidentals, city	$71,715 42	
Amount paid for rent, fuel and other incidentals, counties	70,928 80	
Total		$142,644 22
Being an increase in 1895 of...$20,843 24		

Total expenses for public school purposes, city	$1,207,229 17	
Total expenses for public school purposes, counties	1,181,052 16	
Total		$2,388,281 33
Being an increase in 1895 of...$40,269 62		

Excluding the city of Baltimore, the county schools show the following results:

Number of schools	2,154	
Decrease in 1895		6
Total number of scholars enrolled	126,469	
Increase in 1895		1,096
Highest number enrolled in one term	114,207	
Increase in 1895		2,278
Average number enrolled	105,060	
Increase in 1895		3,363
Average number in daily attendance	71,300	
Increase in 1895		1,693
Number in first grade	29,956	
Increase in 1895		1,589
Number in second grade	18,493	
Increase in 1895		191
Number in third grade	20,554	
Increase in 1895		837
Number in fourth grade	16,698	
Decrease in 1895		2,122
Number in fifth grade	13,511	
Decrease in 1895		566
Number in sixth grade	9,062	
Increase in 1895		711
Number above sixth grade	10,184	
Increase in 1895		6,031
Number studying book-keeping	2,715	
Increase in 1895		309
Number studying algebra	6,238	
Increase in 1895		503
Number studying philosophy	3,534	
Decrease in 1895		84
Number studying drawing	27,474	
Decrease in 1895		852
Number studying geometry	2,798	
Increase in 1895		328
Number studying physiology	19,274	
Increase in 1895		532

Number of teachers (including assistants)—		
Men—white, 709; colored, 201; total	910	
Women—white, 1,660; colored, 317; total	1,977	
Total		2,887
Increase in 1895	33	
Average number of months schools were open		8.0
Decrease of 0.2 of one month.		
Amount received from State school tax (white schools,) free school fund, and academic donations	$347,749 26	
Decrease in 1895		$1,484 83
Amount received from State school tax appropriated to colored schools	$92,331 92	
Decrease in 1895		$21 94
Amount received from county tax	$539,983 38	
Increase in 1895		$2,528 71
Amount paid for teachers' salaries	$816,250 84	
Increase in 1895		$1,520 21
Amount paid for building, repairing and furnishing school houses	$105,978 38	
Decrease in 1895		$63,765 92
Amount paid for books and stationery	$48,383 03	
Decrease in 1895		$1,881 47
Amount paid for supervision and office expenses.	$40,903 61	
Decrease in 1895		$639 77
Amount paid for incidental expenses, including fuel and rent	$70,928 80	
Decrease in 1895		$1,761 63
Amount paid for interest	$8,614 16	
Increase in 1895		$2,637 33
Amount paid for miscellaneous expenses	$17,272 66	
Decrease in 1895		$3,136 44
Amount of indebtedness paid	$72,720 68	
Increase in 1895		$25,828 05
Total expenses for the public school purposes in the counties	$1,181,052 16	
Decrease in 1895		$41,199 64

The items of expenditure which show an increase are:

Teachers' salaries	$1,520 21	
Interest	2,637 33	
Indebtedness paid	25,828 05	
Total		$29,985 59

The items which show a decrease are:

Building, repairing and furnishing	$63,765 92	
Books and stationery	1,881 47	
Supervision and office expenses	639 77	
Incidental expenses, fuel and rent	1,761 63	
Miscellaneous	3,136 44	
Total		$71,185 23
Showing a net decrease of expenditure in 1895	$41,199 64	

STATE TABLES.

STATE TABLES.

The State tables annexed present the usual summary of interesting facts.

Table "A" shows the population of Maryland by counties and the number of white and colored, according to the census of 1890.

Table "B" shows the population between 5 and 20, and the quarterly distribution of the State school tax to the white schools of the several counties and the city of Baltimore.

Table "C" shows the colored population between 5 and 20, and the quarterly distribution of the State school tax to colored schools of the several counties and the city of Baltimore.

Table "D" shows the assessed value of the property subject to taxation in the several counties, with the amounts, as "State School Tax, "Free School Fund," "Academic Fund," "Appropriation to Colored Schools" and "County School Tax."

Table "E" shows receipts from all sources, with the totals (including balances carried over.)

Table "F" shows the expenditures of the several counties under the items of teachers' salaries, incidental expenses, books and stationery, building, repairing and furniture, supervision and office expenses, miscellaneous, interest, indebtedness paid, with the balance on hand and the totals.

Table "G" shows the number of pupils in the primary grades, and the number studying special branches.

Table "H" shows the number of schools in each county, the number of months schools were open, the number of teachers, male and female, the number of different pupils, the average number of pupils enrolled and in attendance, and the highest number enrolled in one term.

Table "I" shows the cost of the colored schools and the statistics (under the same heads as those mentioned in Table "H") of the colored schools separately.

Table "K" shows the receipts from all sources for colored schools (including balance carried over.)

Table "L" shows the expenditures for colored schools under the heads mentioned in Table "F."

Table "M" gives the statistics of the several colleges receiving State donations, and of the State Normal School.

Table "N" gives the statistics of the several schools and academies receiving State donations.

The county reports give in detail the enrollment and the average attendance for each term, and the expenses of each individual school, under the heads of rent, fuel, repairs, incidentals, furniture, blackboards and stoves, books, and teachers' salaries. Every citizen can thus know what the school in his district has cost, and may become the auditor of the accounts. It is believed that no State in the Union furnishes a similarly minute detail of expenses.

Signed:

FRANK BROWN, GOVERNOR,
President.

WILLIAM DALE,
JAMES A. DIFFENBAUGH,
LOUIS L. BEATTY,
CHARLES B. ROGERS,

E. B. PRETTYMAN,
Secretary.

REPORT

OF THE

SECRETARY.

REPORT OF THE SECRETARY.

The summary included in the report of the State Board of Education, and the State tables immediately following, give a comprehensive view of the condition of the public schools during the last school year, ending July 31, 1894. The statistical reports of the Board of Commissioners of Public Schools of Baltimore City, and of the School Commissioners of the several counties of the State, present, in minute detail, the facts concerning the schools, and show the receipts and disbursements for their support. The statements of the several County Examiners will doubtless be read with great interest.

CAROLINE COUNTY.—*M. B. Stevens, Examiner.*

DENTON, MD., *December 30, 1895.*

HON. E. B. PRETTYMAN,

Sect'y State Board Education.

MY DEAR SIR—In compliance with request, contained in your favor of 20th inst., that "some supplemental remarks on topics of public school work, including district school libraries," accompany the statistical report of our county schools, we are glad to claim, with pardonable pride, the distinction of being the banner county of the State in the formation of school libraries. There are now forty-one of our schools with libraries and only eight white schools without them. It is our purpose to encourage the work until at least every white school shall enjoy whatever advantages a library of carefully selected books may afford. The total number of library books exceeds four thousand volumes, and it is in place to add that comparatively few *cheap* books are included in the purchases. Our suggestion that an unabridged dictionary and an encyclopedia be included in the first purchase of library books has in many cases been heeded, for these should form the nucleus for every library enterprise. Upon the assumption that no argument is needed to demonstrate the value and utility of a school library both upon school work

in making it more efficient and comprehensible, and the intelligence of the school district in raising it to a higher plane, it is hard to understand why the schools of our State do not accomplish more in this direction. There are no valid reasons why fifty per cent. of our schools to-day, without these necessary educational adjuncts, should not arrange to establish a school library before the close of the present fiscal year. Any live and energetic teacher can do it and, we feel tempted to say, *will do it.* The first thing to be done on the part of a school is to *determine* to form a library and then devise the best means to raise at least ten dollars, so that the donation from the County School Board may be available. Some teachers hold school festivals and raise the amount, which is the popular method in our county; others solicit small contributions through the agency of the pupils, while others give school entertainments and charge an admission fee. Whenever a school establishes a library the fact should be sent to the press of the county and published, that every other teacher and the school patrons of other districts may become cognizant of it. The effect will be healthy. Public attention in this way will soon become aroused as to their importance, and interest in favor of school libraries will be so quickened as to make the task of establishing them quite easy.

The objection is sometimes raised that library books are soon scattered over the school district and lost, and consequently the usefulness of the library is of short duration. When this *is* the case, then the objection is well founded. There must be library rules and regulations to prevent this, and under the direction of our School Board, such regulations, uniform for all libraries, are printed and pasted in every book. Nor is this sufficient; for every teacher at the close of the year should take an inventory of all the books on hand and furnish a list to the County Examiner, who should compare it with the report for the preceding year and note whatever books may be missing. We have found this to be an effective way to prevent the depletion of school libraries which is the tendency unless the teacher is made responsible for the return of the books. The loss to our libraries working on this plan for the last school year was a mere trifle. The cause of school libraries was materially helped when the State Board of Education issued a catalogue in which the books are

classified for the various grades. It had often occurred that books were selected ill adapted to the taste of the average pupil and by following the catalogue this error is now avoided.

The interest of pupils and patrons must not only be awakened for the time but retained. This can be done by purchasing some new books every year. Indeed, interest will wane and the usefulness of the library be lessened unless the library be enlarged frequently. During the past threee months more than three hundred dollars have been spent in purchasing books for libraries that have been established for years.

We are now making our plans to have the eight remaining white schools purchase libraries, and in this way make good our assertion that it is possible for every school to provide a "district school library," and sanction the wisdom of the framers of our school law when they declared: "For the further encouragement of education, district libraries ought to be established in *each* school house district."

Yours, obediently,

M. B. Stephens,

Secretary.

Edward R. Goslin,
Jno. F. Dawson,
Henry C. Fisher,
Commissioners.

CHARLES COUNTY.—*F. J. Maddox, Examiner.*

Port Tobacco, Md., *December 27th, 1895.*

Prof. E. B. Prettyman,
Baltimore, Md.

The financial statement, which I have the honor to transmit to you, bears evidence of our straightened circumstances, but I beg to say not from any mismanagement on the part of our school officials, but from a reduction in the State distribution and an increased number of schools.

Doubtless our County Commissioners would come to our rescue and grant us adequate means to meet many urgent demands

of our schools, but misfortunes, increasing the county expenses, have been so numerous that *they* are thinking of invoking State aid to relieve themselves.

Our school service sustained a great loss in the death of our late Examiner, Mr. Geo. W. Berry, coming as it did, about the middle of the scholastic year, when the most valuable service is to be rendered in the school-room. Much time was necessarily lost in filling his place, ascertaining the status of affairs, and getting things in working order under changed conditions.

Notwithstanding these impediments, our schools have gone on smoothly and successfully, with encouraging prospects for the future. Our teachers, for the most part, have put forth additional effort and have endeavored to overcome this untimely loss.

Our Teachers' Associations are held quarterly; they are well attended by both teachers and outsiders, who manifest great interest and seem to be well paid for their time and trouble.

We have established eleven school libraries, containing perhaps one hundred and fifty books, and they are being increased from time to time by the efforts of our teachers. While the purpose aimed at, in establishing school libraries, is highly commendable, it is doubtful whether or not they will prove practicable, as our school houses are so remote from all other habitable buildings, that they are in imminent danger of being appropriated for a less worthy purpose than that for which they were intended.

Very truly yours, &c,,

F. J. Maddox, *Examiner.*

DORCHESTER COUNTY—*Dr. James L. Bryan, Examiner.*

Cambridge, Maryland, *December 19th, 1895.*

In addition to the full official and financial report of our schools in this county, I would add that there has been some increase in the attendance of pupils, considerable improvement in the houses and furniture, and creditable results from the

year's work of the Board, Examiner and teachers. If the frequent changes of teachers could be prevented, even better results might be expected.

School Libraries.

There are school libraries in Cambridge, East New Market and Vienna, and possibly small ones in other school districts, containing in all over one thousand volumes. In addition, we have a valuable collection of works, books of reference, &c., in the office of the School Board, which teachers consult.

No general adoption of such useful additions to our ordinary facilities can be expected while our school funds are so limited. With an area as great as that of Talbot, Caroline and part of Queen Anne's counties, we are still tied down to about ninety-five white schools and forty-five colored ones, and these are run only three terms for the white and two for the colored, while in the territory compared with our county in area, there are over two hundred schools run for a much longer time.

In addition to these restrictions we have no Institutes or Teachers' Associations for the improvement of the young teachers.

These difficulties are also due to the limited means at our disposal.

Naturally we consider this state of affairs as almost a violation of the constitutional provision for education.

Section 1st of article VIII reads as follows: "The General Assembly, at its first session after the adoption of this Constitution, shall by law, establish throughout the State a thorough and efficient system of Free Public Schools; and shall provide by taxation or otherwise for their maintenance."

As the condition of school affairs in this county, so very unsatisfactory, is still better than that in some other counties of the State, it is a duty not to be neglected by school authorities, by the executive and legislative departments of the Government, to bring the system to a more uniform compliance with the provisions of the Constitution in this most important matter.

In my report last year I suggested a fair and sensible solution of the problem, as follows:

"We cannot possibly adopt a fairer mode of raising the necessary funds than the one adopted in the VanBokkelen law. First, in a *State tax* sufficient to pay all teachers' salaries. Salaries of principal and professors in the Normal School. Secondly, a county tax, sufficient to pay the other expenses of the system, for incidentals, building and repairing school houses, furniture, stoves, fuel, &c. (See page 99 of first report of State Superintendent, L. Van Bokkelen.)

These changes, with re-creation of the office of State Superintendent of Education, relieved of the control of the Normal School, would bring relief to the system, and joy to the people of the State.

I would add to these recommendations the adoption of a State year of at least nine months of actual teaching for all. Counties desiring one more month, to defray that expense from local means. Such action as this would soon bring all of the counties into line in this noble work, and carry out the provisions of the Constitution of the State, and the evident intentions of the wise and able men who formulated it.

The reorganization of the school system at this time, would not be complete without fair, prudent and wise consideration of the selection of the School Commissioners. The present mode is not satisfactory, if constitutional, and there will forever be objection to a plan which makes the most important part of the school system the reward of mere party fealty, of persons oftentimes without the least qualification for the duties and responsibilities of the high and honorable office of managing successfully and wisely the educational interests of the State.

State Board of Education.

The same objection lies against the Constitution of the State Board of Education.

In some way, this latter Board should include some representation of the city and county boards, meeting at least twice a year for deliberation and consultation with the State authorities on actual school work and affairs.

Such boards selected from the educational element, restrained by wise business control, would be great blessings to the school work of the State.

In the selection of the School Commissioners, my own long observation and experience of all the modes adopted, and of the satisfaction resulting from the exercise of the power of appointment, is in favor of appointment by the Judges of the Circuit Courts. This mode existed for over twenty years, with scarcely a murmur of dissent, and doubtless would have remained unchanged but for mere political reasons, which should not have entered into the exercise of this most important duty.

Of all methods, the one by election is the very worst. We tried it in this State in 1868 to 1870, and with such results as made a change speedily necessary.

Appointment by the Courts followed, and remained the rule until 1894, twenty-four years, when the present mode was adopted, and this mode is not a success.

Free Books.

The repeated failures to adopt free books in our free schools, will end, it is to be hoped, with the prompt action of the next Legislature in adding this most useful, economical and beneficent feature to the school law.

State Superintendents.

The return to the Van Bokkelen system by having a State Superintendent of Education, relieved of the control of the Normal School, would add a fitting cap-stone to the entire and admirable school system of Maryland.

HARFORD COUNTY—*John D. Worthington, Examiner.*

Office Board School Commissioners,
Bel Air, Md., *October 1, 1895.*

Mr. E. B. Prettyman, *State Supt.*,
Baltimore, Md.

Dear Sir:—I herewith enclose my State report for the year ending July 31, and to the careful observer it discloses a year of substantial success for our schools, checkered though it may

have been. It is not reasonable to expect that a system which reaches, directly or indirectly, over 30,000 people, will at all times meet with their united wishes, or be free from their criticisms, but I have good reason to believe that where differences as to existing conditions have occurred, they have generally had in view the building up of the system to meet higher and broader desires, rather than a tearing down to satisfy a hostile spirit. The public schools of this county having united with them, by contracts, our three academies, now furnish all the educational facilities enjoyed in the county, hence their obligagation to furnish satisfactory secondary as well as primary education, has become a serious one.

Not shirking a duty which they have themselves created, a well-rounded academic or high school course has been in successful operation for several years; and, on its successful completion, the graduate receives a handsomely engraved diploma from this Board.

While the few large schools in populous sections naturally turn out the bulk of the graduates, the same possibilities exist in all sections, the twenty-two graduates in the county last summer coming from seven different schools.

The mutual benefits of uniting the academies with the public school system can not be over-estimated, for while it relieves the academy of doing much primary work which is necessary if run independently, it enables the public school, at a net saving of money, to furnish a stronger principal and do higher grade work; and as the academy draws the bulk of its support from the State treasury, it is a natural consequent that its work should be done under the jurisdiction of the public school officers of the county.

I paid one hundred and sixty-five official visits among the schools during the year, and I think I could see then a gratifying tendency for patrons to supplement the expenditure of the Board, by buying at their own expense, organs, maps, globes, &c., enlarging their forty district libraries (which, I think, average at least 125 volumes each); supporting the hands of the teacher in a faithful and fearless administration, and, in fact, aiming to make the school the center of all activities for good in its neighborhood. One of the best results of this is to fix the teacher's

energies and professional ambition on the school he fills instead of floating from place to place to better his condition. During the year no compulsory changes were made, and only some eight out of one hundred and forty voluntarily changed schools or retired from the service for satisfactory reasons.

The increase in both enrollment and average attendance over the preceding year, (when both far exceeded our expectations), was most gratifying; and, while our revenue is not what we need to meet the rapidly increasing demands on us, a liberal spirit has been shown by the County Commissioners to furnish funds just as far as the existing financial depression would permit. Under a new assessment I confidently expect so much new property to be reached that, notwithstanding the great shrinkage in real estate, the aggregate taxable basis will be sufficiently raised to furnish an increased revenue with existing rates of taxation.

I regret very much that trustees and patrons do not yet pay the frequent visits to their schools which are such a valuable stimulus to both teachers and pupils.

It is not necessary for one to be a specialist in order that his visit may be beneficial; there are many more reasons than the length of this letter would permit me to set forth which could be given in favor of these little visits. As far as visiting the schools on extraordinary or festal days is concerned, the improvement is very marked; from the most reliable data I could obtain I estimate that throughout the whole county not less than 3,000 visitors helped to gladden the closing hours last June; but it would have a quickening effect on both teachers and pupils if patrons and trustees would frequently pay short informal visits to their school, so that they might become acquainted with it as it is from day to day.

For some sixteen or seventeen years past the Board has been averaging about $150 per annum for insurance upon school property, and during that time have received back for losses by fire less than five hundred dollars. They have now instituted a system of insuring their houses themselves, except two large houses in towns, and expect to show in the course of ten years a very considerable saving of school funds.

In view of the modern fad to decry examinations it may be proper to state that this Board not only has no tendency to rise above the law they have undertaken to enforce, which says: "Public examinations shall be held in each school twice a year;" but they have no disposition to believe that they are useless burdens upon child-growth. As lately stated by the Board on the subject: "If the general public is familiar with the wonderful strides, as demonstrated by their examination papers, which the children of the county have made during the past fifteen years of examinations in practical penmanship, orthography, the proper use of capitals and punctuation, good English, and—best of all—a comprehensive knowledge of what they have been over, examinations as an *educational factor* would be cheerfully recognized."

While it is doubtless true that examinations "do not always examine," it is equally true that for their many indirect as well as direct benefits they should always be an important factor in any scheme of education—notably a public one. I remain

Very respectfully, &c.,

JOHN D. WORTHINGTON, *Examiner.*

The following supplementary reports have been received from Colleges and other Educational Institutions receiving donations from the State:

MARYLAND AGRICULTURAL COLLEGE.

President, R. W. SILVESTER.

COLLEGE STATION, *December 20, 1895.*

My Dear Sir:—Since our last report I beg to say that the condition of more room for the constantly expanding work is our greatest desideratum. In the main, every department of the institution is advancing its course. The agricultural feature is becoming more and more pronounced. The department of mechanical engineering has been completed and equipped, and fifteen students have commenced the four years' course. The department of chemistry is doing a very valuable work for the agricultural interests of the State in the analysis of the fertilizers.

Two valuable bulletins on the subject are published yearly. The Agricultural Department has inaugurated a movement for Farmers' Institutes, and also a short course in agriculture, to be given during six weeks, commencing the 20th January. These new arrangements are designed to reach the agriculturists in a manner otherwise out of the question.

The whole policy of the College at present is to develop an institution in which practical information based upon the sciences underlying it, shall be its aim and object.

Very truly yours,

R. W. Silvester.

E. B. Prettyman,

President State Normal School,

Baltimore, Md.

FREDERICK COLLEGE.—*Lucian S. Tilton, Principal.*

Frederick Md., *December 26, 1895.*

Hon. E. B. Prettyman,

Secretary State Board of Education.

Dear Sir—This is not a college, though our Board of Visitors has by law the right to confer any degree expect that of M. D. Fortunately this legal right has never been exercised, and the rare good sense of the Board has kept the Academy to its proper work of preparing boys for college and giving a secondary education to those who desired nothing beyond the Academy course. There has also been an elementary course designed for those who for any reason were unable to enter upon the regular work of the Classical or English Departments.

Graduates of this school have gone directly from us to Yale, Johns Hopkins, Princeton, Swarthmore, Washington and Lee, Pennsylvania and Georgetown, within the last five years, and we are to-day represented at each of these colleges with one exception. More than this is also true; our graduates are taking high rank in these colleges and are easily holding their own with pupils prepared at the larger schools. It may not be out of

place to add that but for this Academy some of these young men would not have been in a condition to acquire a liberal education. The wisdom of the State in making possible the existence of such academies is easily seen if one considers the great good that must come to the commonwealth from her educated citizens. By no means all of our boys who go to college pursue the classical course; three at least are taking work modern enough to satisfy the most inveterate hater of Greek and Latin.

It is highly proable that, before this report is in print, all of the courses in the school will have been carefully revised and changes made, if necessary, to bring our program of studies in line with the educational standards of the day as set forth by the Association of Colleges and Preparatory Schools in the Middle States and Maryland, and the Association of Colleges and Schools in New England.

But preparing pupils for the colleges and technical schools is only part of the work we do. Many a boy receives his entire education with us, and it is hoped that when the new plans for future work shall have been put into practice, the graduates of the public school will find their way to the Academy for a fuller and more extensive course than that they have finished.

At no time during the past five years has the number of pupils educated, tuition fee, been as small as eight (8), the number required by law. A full report of the attendance, deportment, and advancement in scholarship of these pupils is annually made to the Board of Visitors.

While I am sure that it would be a penny-wise policy for the State to fail to make the usual grants to these Academies, I am no less sure that they should all be thoroughly inspected by the State Superintendent of Education or some other agent duly appointed. This inspection should be made at least once a year and the report of the inspection of each of the Academies should be printed with that of the State Board of Education. Whether the amount appropriated be two hundred or twenty thousand dollars, the tax payers have a right to learn, through their public officials, how their funds are used and what are the benefits derived from the expenditures. I am here speaking

only for myself, but I have no doubt that our Board would gladly welcome such an inspection if it were purely an educational one.

Very truly yours,

LUCIAN S. TILTON,

Principal of Frederick College.

ST. JOHN'S COLLEGE.

DR. THOMAS FELL, *President.*

ANNAPOLIS, MD., *December 31, 1895.*

By aid of the additional appropriations granted by the General Assembly of 1892, and renewed in 1894, it has been possible to increase the members of the faculty.

A new chair of English and English Literature has been created, and improvements have been made in the department of Natural Sciences.

The numbers of students in attendance have increased, bringing the sum total of those in the collegiate department to 108—a number that has never been reached during the past thirty years. The attendance in the preparatory school keeps up to the usual average of about 70.

Under these improved conditions the character of the work done in all departments has been much invigorated, so that the course of study pursued at the college is equally as comprehensive as that of other colleges of the highest grade, including as it does, the department of Ancient and Modern Languages, Mathematics, Natural Sciences, Mental, Moral and Social Science, History (Ancient and Modern), English Language and Literature, Military Tactics and Law.

Respectfully submitted,

THOMAS FELL.

WASHINGTON COLLEGE.—Chestertown, Md.

Dr. C. W. Reid, President.

To the State Board of Education.

The Visitors and Governors of Washington College, in pursuance of the requirements of article 77, section 17 of the Code of Public General Laws of Maryland, herewith submit the following report for the collegiate year ending September 18th, 1895.

The number of students in attendance was one hundred and six, of whom twelve were graduated, one of the twelve being a young woman, the first female graduate of the college.

All the State scholarships were filled by deserving students, and in addition to these, free tuition was given to five students from Chestertown.

There has been no change in the faculty since the last report, and they are all working with energy and in harmony for the advancement of the college.

The students are a very creditable body of young men and women, and the general condition of the college is in every respect satisfactory to the Visitors.

Jas. A. Wickes,
President of the Visitors and Governors of Washington College.

BALTIMORE NORMAL SCHOOL.

FOR THE EDUCATION OF COLORED TEACHERS.

George Harrison, *Principal.*

Baltimore, *December 26, 1895.*

Prof. E. B. Prettyman,
Secretary of State Board of Education, Maryland.

Sir:—I herewith inclose the annual statistical report of Baltimore Normal School for Education of Colored Teachers, with a brief sketch of the school since June, 1893.

At the close of school, June, 1893, the board of trustees abolished the preparatory department, and resolved to admit only such applicants as were sufficiently advanced to enter the first year class of a three year normal course; they at the same time elected the late Prof. M. A. Newell, Principal. Prof. Chaplain, Superintendent of Schools for Talbot County, was chosen to succeed him, but resigned October 31, 1893; the present principal was then elected, and entered upon his duties November 1, 1893.

When the school was reorganized in 1893, twelve pupils were enrolled, all of whom entered the first class; the school now numbers thirty, ten in the first class, twelve in the second, and eight in the third; the third class are candidates for graduation at the close of school, June, 1896.

One of the purposes of the school being to prepare colored people to successfully stand examination for teachers, the curriculum was made to embrace all the branches taught in the public schools of Maryland.

The school year consists of one term, beginning about the middle of September, and ending on the last Thursday in June of the following year. The school day is embraced in one session, from 9 A. M. to 2 P. M.

The school is now conducted by the Principal and one assistant.

Board of Trustees—

Jos. M. Cushing, *President*,
Clemens Lamping, *Secretary*,
F. Henry Boggs, *Treasurer*,
John A. Needles,
John M. Carter,
Dr. Bernard C. Steiner,
John H. Buxler.

Very respectfully,
George Harrison, *Principal.*

MARYLAND STATE NORMAL SCHOOL.

The appropriation made by Chapter 403, Laws of Maryland, 1894, for the enlargement of the State Normal School building and for metal ceilings and other repairs in said building, has been wisely and economically expended, in carrying out the provisions of said Act, by the committee, consisting of the Board of Public Works and the State Board of Education, within the appropriation; and all vouchers for the disbursements are on file in the office of the State Treasurer. His Excellency, Frank Brown, Governor, was elected Chairman, and Hon. Marion de Kalb Smith, Treasurer, of the Building Committee. The enlargement and the general repairs have added very much needed and excellent facilities for conducting the school. The appropriation for furnishing the several rooms of the addition, was found to be insufficient, and the State Board of Education will make a special report thereon to the General Assembly of 1896. Two hundred and forty-nine students during the last school year received free scholarships, by appointment of the School Boards of Baltimore city, and of the several counties of the State, and of the State Board of Education.

The following announcements by the Principal at the last Commencement, will indicate the character of the work done by the School:

"The roll of this School during the past year has contained the names of 387 students, from Baltimore city and from every county in Maryland, and from Virginia, Pennsylvania, New York and Texas.

"Seventy-eight graduates of the class of '94 have been engaged in teaching in the public schools of the City and State, during the past year.

"Of the professional graduates of the class of '95, fifty-eight have attained an average of 80 or more, twenty-two have an average of 90 or more, ten have an average of 95 or more, and one has an average of 98 on a scale of 100.

"After the close of the exercises in this hall, our visitors are invited to inspect a partial exhibit of the work of the School in the various rooms of the building. Members of the Reception Committee will take pleasure in answering any questions. In

the new laboratory will be found the work of the students in botany, mineralogy, object-lesson charts, photography, and apparatus made by the students for simple experiments in air, liquids, heat, magnetism and electricity, and the observation blanks in physics and chemistry.

"On the principal floor will be found students' work in literature, drawing, charts for first reading lessons, notes on observations in the model school, essays, and observation blanks and maps in geography, clay modeling, and sewing, and written examinations on the other branches of the curriculum.

"On the next floor below are the gymnasium and the educational Sloyd room for work in paper, card-board, and wood.

"The building will be open for inspection to-morrow from 10 A. M. until 4 P. M., and all visitors will be cordially welcomed to examine the exhibit."

ARBOR DAY.

This beautiful festival so well calculated to cultivate the love of nature, to refine the taste, and to afford opportunity for the adornment of the grounds of school houses, was again observed by the public schools throughout the State, on the 11th day of April, 1895, in pursuance of the following:

PROCLAMATION BY THE GOVERNOR.

EXECUTIVE DEPARTMENT,
ANNAPOLIS, MARYLAND.

WHEREAS, By Joint Resolution of the General Assembly of Maryland, adopted in 1884, I am authorized and directed to designate a day in April for the planting of forest trees, to be known as Arbor Day,

Now, therefore, I hereby appoint Thursday, April 11th, 1895, as Arbor Day.

The beneficial results which have followed from the observance of Arbor Day since it was first established in this State, ten years ago, are great, and I trust that the people of the State

will generally devote the appointed day to the planting or transplanting of trees, vines and shrubbery, so that the beauty and value of the homes, highways and public places of the State may be increased.

I respectfully recommend to parents and teachers of public schools, that they encourage their children, or those under their influence, to plant or transplant at least one forest or shade tree on that day, by the side of some public road or about their school houses or homes.

While the designated day is not a legal holiday, I hope that the authorities will cause it to be observed in all the public schools, accompanied by instruction touching the purposes and benefits of the festival.

THE GREAT SEAL OF MARYLAND.

Given under my hand and the Great Seal of Maryland, at the city of Annapolis, on the twenty-sixth day of March, A. D., 1895.

FRANK BROWN, *Governor.*

By the Governor,
EDWIN GOTT, *Secretary of State.*

The following was the Arbor Day program at the State Normal School:

PROGRAM.

EXERCISES IN THE MAIN HALL.

MUSICAL DIRECTOR - PROF. FRITZ GAUL.

ANTHEM.—Consider the Lillies, - - - - *Topliff.*

APPROPRIATE SELECTIONS FROM THE BIBLE,
Prof. E. B. Prettyman, Principal.

READING OF THE GOVERNOR'S PROCLAMATION,
Miss S. E. Richmond, Vice-Principal.

QUOTATIONS.—
M. SUNDERLAND, C. TROTTER,
J. HALL, R. COCKEY,
E. VANSANT.

CHORUS.—Peasant's Wedding March, - - *Soedermann.*

ADDRESS, - - - - - PROF. H. E. AUSTIN.
"*Nature in Literature.*"

SONG—Spring, - - - - - - *Schartau*
Model School.

RECITATION.—How the leaves came down, - - *S. Coolidge.*
Elinor Wiley.

CHALK TALK, - - - - - *Mr. Geo. E. Little.*
Application of Form Study to Plants and Animals.

WALTZ SONG.—Summer Fancies, - - - *O. Metra.*
MARCH TO THE TREE.

OUT-DOOR EXERCISES.

PLANTING OF TREE, (on Carrollton Avenue,) - - *Class of* '95.
Weir's Cut-Leaved Silver Maple—*Acer Dasycarpum.*
Named in honor of Miss Helen M. Cole.

PLANTING SONG. - - - *Words and Music by S. F. Smith.*

Joy for the sturdy trees
Fanned by each fragrant breeze,
  Lovely they stand!
The song birds o'er them trill,
They shade each tinkling rill,
They crown each swelling hill,
  Lowly or grand.

Plant them by stream and way.
Plant where the children play
  And toilers rest:
In every verdant vale,
On every sunny swale—
Whether to grow, or fail,
  God knowest best.

Select the strong, the fair,
Plant them with earnest care,
  No toil is vain.
Plant in a fitter place,
Where, like a lovely face,
Set in some sweeter grace,
  Change may prove gain.

God with his blessing send,
All things on him depend,
  His loving care
Clings to each leaf and flower,
Like ivy to its tower;
His presence and His power
  Are everywhere.

ASSOCIATIONS.

THE MARYLAND STATE TEACHERS' ASSOCIATION held its *twenty-ninth annual session* at the BLUE MOUNTAIN HOUSE, Washington County, Maryland, July 9th, 10th and 11th, 1895, in accordance with the following program, which was substantially carried out:

OFFICERS.

President.—M. Bates Stephens, Caroline.
First Vice-President—Frank C. Beall, Allegany.
Second Vice-President—Jacob H. Blocher, Carroll.
Recording Secretary—Albert F. Wilkerson, Baltimore City.
Corresponding Secretary—Miss Bernice Halley, Charles.
Treasurer—Alexander Chaplain, Talbot.
Executive Committee—Chas. F. Raddatz, Baltimore City.
John C. Bannon, Anne Arundel.
Frank S. Everist, Cecil,
Henry Wingate, St. Mary.
William C. A. Hammel, State Normal School.

PROGRAM.

Tuesday, July 9th.

Opening Session - - - - - - - - - - 7.30 P. M.

Music—Address of Welcome—Hon. Buchanan Schley, Hagerstown.
Response—Hon. James A. Diffenbaugh, State Board of Education, Westminster.

Music—President's Address—M. Bates Stephens, Denton.
Paper—"The Drama as an Educational Factor," Prof. R. M. Hamilton, Vienna Academy.

Music.

NOTE—All topics upon the program are open for discussion.

Wednesday, July 10th.

Morning Session - . - - - - - 9 o'clock.

Music—Address—"Public Schools and Public Libraries," Dr. Bernard C. Steiner, Prof. Johns Hopkins University and Librarian Pratt Free Library of Baltimore.

Paper—"Latin in the Public Schools," Prof. T. E. Metzger, Frostburg.

Address—"Character in Education," Dr. Henry Branch, Ellicott City.

Music—Address—"Evolution in Child Mind," Mr. R. A. Rowlenson, Rolphs.

Paper—"The Rewards of the Teacher," Mr. Henry Wingate, Chaptico.

Paper—"How to Teach Spelling so that the Pupils will Become Good Spellers" Mr. Geo. W. Craig, Hancock.

Music.

Evening Session - - - - - - 7.30 o'clock.

Music—Address—"The Relation of the State to the Public Schools," Hon. James A. Pearce, Chestertown.

Paper—"The Training of the Reflective Power," Prof. Elmer J. Cook, A. B., Bel Air.

Elocutionary Exercises—Miss Harriette Brown, Millersville.

Music.

Thursday, July 11th.

Morning Session - - - - - - 9 o'clock.

Music—Address—"The Eloquence of Matter," Dr. S. Simpson, Western Maryland College.

Paper—"The Teaching of Physiology in Public Schools," Dr. W. H. Howell, Johns Hopkins University.

Paper—"Recent Pedagogic Enterprise," Prof. S. E. Forman, Baltimore.

Music—Paper—"Physical Education," Miss Amanda D. Saulsbury, Ridgely.

Paper—"How Shall I Read It," Prof. D. M. Long, Trappe.

Paper—"Instruction in Modern Languages," Prof. Julius Blume, Marston's University School, Baltimore.

Music.

Evening Session - - - - - - 7.30 o'clock.

Music—Address—"The True Purpose of Teaching," Prof. W. S. Crouse, St Michael's.

Elocutionary Exercises.

Business Meeting.

Election of Officers.

Music.

The Secretary of the State Board of Education, by request of said Board, attended the meeting of the National Educational Association, which unfortunately was held at the same time as that of the Maryland State Teachers' Association, and the above program was furnished through the courtesy of Professor Charles F. Raddatz, Chairman of the Executive Committee.

The following report of the proceedings of the Association is taken from the columns of the Baltimore *Sun:*

MARYLAND'S TEACHERS.

Their Annual Gathering at the Blue Mountain House, July 9th, 1895.

State Association's Record.

Twenty-nine Years of Activity and Well-directed Energy—Scores of Educational Workers Listen to Addresses by Col. Buchanan Schley, Mr. James A. Diffenbaugh, Mr. M. B. Stephens, and others—Letter read from President Gilman.

School teachers and school officers from every part of the good old State of Maryland were assembled last night at the Blue Mountain House, when the State Teachers' Association began its twenty-ninth annual meeting with a number of speeches and addresses.

Since Saturday they have been gathering for a week's rest and enjoyment in the beautiful Blue Ridge mountains, and every engine that tugged a train up the steep grades of the Western Maryland Railroad yesterday brought additions to the throng, some by twos and threes and some in larger parties. The arrival of the Blue Mountain express late in the evening more than doubled the attendance, and with the new recruits that are expected to-day, more than two hundred teachers in public and private schools, school commissioners and trustees, county school examiners and others interested in Maryland education will be present during the three days that the annual meeting is to last.

THE ASSOCIATION'S EARLY DAYS.

The State Teachers' Association had its origin in Baltimore in 1866. The public school system was not then such a well-recognized part and parcel of the State government, and the Association was the outcome of a desire for unity on the part of the teachers and friends of the public school to oppose the efforts of those who were constantly agitating the withdrawal of the State's support of the schools by general taxation. For many years its most active feature was a "committee of defense," who were kept busy at each session of the Legislature fighting such antagonistic resolutions. But that is now all a thing of the past, and the long and unbroken line of victories which this committee gallantly won is known personally to but few of those who are now active members of the Association.

Nowadays, the Association finds its activity in annual gatherings in the long summer vacation, similar to that now being held

at the Blue Mountain House, where every one gains new thoughts and new ideas from the papers which are read and the discussions which are held. Such gatherings are made enjoyable, too, by being held each year in some pleasant summer resort, where the opportunities for pleasure trips and outside social features are many and varied. The Blue Mountain House and Ocean City have each been chosen several times, and in addition, the Association has met at Deer Park, at Mountain Lake Park, and at Old Point Comfort, Va. Last year the teachers gathered at Annapolis, where, twenty-seven years before, they had held their first annual reunion.

THOUSANDS OF TEACHERS.

The membership of the Association varies from year to year on account of the loose character of its organization, but it is stated that there are now about 600 names upon the roll, a big share of whom are ladies. The number of teachers in the public schools of the State, is about 3,500, and in addition it is estimated that 500 other persons are school officers and 1,000 others teachers in private schools of various grades.

PROMINENT MEMBERS.

Some of those who were prominent in the early years of the Association were the late Prof. M. A. Newell, once State Superintendent of Public Instruction; Prof. William Creery, Prof. Francis A. Soper, of the Baltimore City College; Dr. Henry Shepard, formerly superintendent of the public schools of Baltimore, and now a professor in Charleston, S. C.; Dr. James H. Bryan, of Dorchester county, and Miss Sarah Richmond, of the State Normal School. The presidents of the Association, among others, have been: Prof. Soper and Prof. Wilbur Smith, of the Baltimore City College; Mr. James A. Diffenbaugh, of Carroll county; Mr. P. A. Witmer, of Hagerstown; Mr. Henry G. Weimer, of Cumberland, and Mr. John E. McCahan, assistant superintendent of the public schools of Baltimore.

PRESENT OFFICERS.

The present officers of the Association are: President, M. Bates Stephens, Caroline county; first vice-president, Frank C. Beall, Allegany; second vice-president, Jacob H. Blocher, Carroll; recording secretary, Albert F. Wilkerson, Baltimore city; corresponding secretary, Miss Bernice Halley, Charles; treasurer, Alexander Chaplain, Talbot.

Executive Committee—Charles F. Raddatz, Baltimore city, chairman; John C. Bannon, Anne Arundel; Frank S. Everist, Cecil; Henry Wingate, St. Mary's; William C. A. Hammel, State Normal School.

LAST NIGHT'S PROGRAMME.

The meeting began last night with a brief address of welcome on behalf of the people of Western Maryland by Col. Buchanan Schley, of Hagerstown, now surveyor of the port of Baltimore. This was answered for the visitors by Mr. James A. Diffenbaugh, of Westminster, a member of the State Board of Education and deputy collector of the port of Baltimore. Then came the annual address of the president, Mr. M. Bates Stephens, who is secretary and treasurer of the Caroline County School Board, and the evening program was ended with a paper by Prof. R. M. Hamilton, principal of the academy at Vienna, on "The Drama as an Educational Factor." The opening prayer was made by Rev. J. H. Handy, of Worcester. In response to the address of welcome by Col. Schley, Mr. Diffenbaugh said:

"If the end in view and the results to be obtained in our case be the training of men and women who will help to form a healthier state and a higher standard of public morals, the production of a stronger and finer literature; fresh discoveries in natural science, with new and more useful applications of its known forces and laws, and such political action as shall apply the humanities to the daily life of the greatest number and best secure justice and happiness for all, we may rejoice in the abounding evidences of merit and advancement. What thought, what purpose dominates us? Who embody and enforce these in our teaching corps? What influence do we have upon public opinion? The answer to these searching questions will determine our value and right to be. Buildings and grounds, and even books, may utterly fail; but right, honest thought, enforced by earnest, upright, scholarly men and women, will never fail to make any school system a power in any land.

THE CONSTITUTION'S ANCHORS.

"Tried even by this severe standard, our public school systems can justify their existence and safely rest upon their good work. They are the sheet anchors of our constitution, on which the ship of state relies with confidence and hope, being the main reliance of our people for the education of the masses, not so much in the graces of scholarship, but in the duties of citizenship. And in the quality and character of that citizenship, its political and ethical productions and their influence on the world, is to be found the real proof of worth. In other words, the contributions of Columbia to the progress and development of man, constitute the best evidence of the value of her educational forces. And while engaged in preparing for the service of our country, men such as Franklin, Washington and Lincoln, and along with them millions of sturdy, unobtrusive citizens,

who seek no distinction beyond that of acting well their part and discharging with fidelity, skill and energy the daily duties of life, the schools will find their best bulwark of defense and their best inspiration for service, their best reliance for approval and their best source of light and life and vigor in the confidence, support and affection of the people, the whole people, without regard to creed or party. They must turn in every danger to the whole people for defense, and look in every need to the whole people for support."

THE PRESIDENT'S ADDRESS.

"It is always a pleasant task," said President Stephens in his address, "to review the statistics and note the excellent showing of a school system which became a part of the statute law of this State less than a quarter of a century ago, but such a retrospect would hardly do more than furnish abundant proof of the rapid growth and almost phenomenal results of a State school system which, though inaugurated as late as 1867, today, in point of public appreciation, the character of its instruction, its adaptability to meet public needs, and in its abundant educational facilities compares favorably with that of any other State, and we believe that the claim is a fair one when we contend that in all the essentials which go to make up a complete school system, it stands second to no other in the country. It is enough to know that during this time the number of school buildings in the counties has increased 75 per cent., the number of pupils 70 per cent., the number of teachers 100 per cent., and the amount of money disbursed by the various counties for school purposes, for the fiscal year ended July 31, 1894, reached the maximum figure of one and a quarter million of dollars.

THE PUBLIC SCHOOL SYSTEM.

"Prejudice against a public school education has gradually melted away before the scorching rays of education itself. Our people believe the public school is the best device for scattering broadcast such seeds of knowledge as ripen into a broader and more general intelligence, and develop into a more enlightened citizenship. They know that a common school education, if acquired under proper methods and conditions, will fairly equip our youth for the responsibilities of citizenship and business life which await them, and as taxpayers contribute liberally and cheerfully to make our school system equal to its important work.

"While there is practical agreement among our people concerning these propositions, they are much divided as to the proper scope of public school work and the kind of development which our instruction should give. The original idea of a

public school education was to teach those fundamental branches of study whose number could be counted on the fingers of one hand, and a knowledge of them was considered sufficient for beginning and undertaking the business of life. Had the demands and requirements of such life remained unchanged, it is probable that the three R's would now complete our curriculum. But the need soon became felt for a greater fund of knowledge than these branches would supply, and for more educational training than their study would bring, and in consequence of this the curriculum was arranged to meet these demands.

WHAT SHOULD BE TAUGHT.

"There is a class of our people who argue yet, that our public schools should teach nothing beyond reading, writing, spelling and arithmetic, but these people are easily managed and embarrass the progress of public education but little, if any. Their number is steadily growing less, for the fallacy of their position was long ago exposed. There is another class, whose claims are not without much force, who contend that the subjects taught in schools maintained at public expense should include only those of general utility and common to the whole community, and in many instances insist that only those studies be pursued by their children which relate to the bread-and-butter or money-making side of life. This is a tendency which we as educators must have the common sense to detect and the courage to combat. We cannot direct public school training to meet some special end in life, nor can we arrange study altogether on the ground of utility. We must train the mind as something in itself worthy of training. The mental faculties must be developed for their own sake as in themselves worthy of development. The ability to earn a living is one of the incidents of real education which starts its recipient on his career fortified with character and essential knowledge.

"There is still another class claiming to be friends of our educational system, whose activity threatens the usefulness of public school work with more harm than comes from all other sources combined. They are those who would have the public schools teach everything. With this class every subject which in anywise appeals to the mental faculties of the child must be forced into the curriculum, on the ground that it has an educational value. They regard our schools as a sort of experimental station where every new-fangled idea conceived by such educational enthusiasts must be incorporated in their instruction. Some of them inadvertently, perhaps, would side-track the controlling aim of public school work by drawing our attention away from the training of the intellect as of first importance.

ENGLISH AND MATHEMATICS.

"It is an old story we have sung into our ears, from time to time, that many of the pupils who complete the prescribed course of study laid down for our schools, cannot write a half dozen consecutive sentences of good English, and are unable to solve such ordinary arithmetical problems as the positions they take in business life, after leaving school, require. This complaint is not confined to our school system, but comes from various States, even including those within the shadows of the greatest schools of learning in the country, and that boast of the finest school systems of the Union. We would wish that the complaint were unfounded so far as it relates to our schools, and we say it is in many cases overdrawn, but every school examiner of this State knows that there is much truth in it.

"The disclosures made in examination papers, where, presumably, the brightest products of school work take the teachers' examination, in so many cases reveal evidences of superficial and careless training in essential studies that we blush when we think of the thousands of pupils who are not so bright, whose work it is not our privilege to review. After an official connection with the school system of this State for ten years we are convinced that along this line is the weakest point in our school work and warrants such attention as will remedy the evil."

DR. GILMAN'S LETTER.

A letter of regret from President Gilman, of Johns Hopkins University, was read by President Thomas Fell, of St. John's College. It was written some weeks ago by Dr. Gilman, just before his departure from Baltimore on his summer vacation. Among other things he says:

"Universities and colleges are based upon the schools of primary and secondary education. They are all one system, and, however imperfect our methods and plans may be, we are all striving after the education of the people and the advancement of intelligence and morality. It would give the authorities of the Johns Hopkins University great pleasure to see within their walls at any time, the teachers of the State. We have new laboratories, collections and lecture-rooms that are of general interest.

"Many of our very best scholars, including those who win honors and prizes in competition with the scholars of every part of the country, came to us thoroughly well prepared from the Baltimore City College. Many of them have never had any other education than that which is afforded by the public school

system of the State. I wish that in every county—at least, in all of the principal subdivisions of the State—there might be a public high school corresponding with the Baltimore City College in the thoroughness of its instruction.

"As I close this letter my attention is called to the announcement that Professor Newcomb has received one of the highest honors that can be bestowed upon a man of sciences. He has been designated as a foreign member of the Academy of Sciences, in Paris, succeeding to the late Professor Helmholtz, of Berlin. May I remind you that in early life Professor Newcomb was for several years a school master in Maryland."

MUSIC AND DECORATIONS.

Several selections were sung by the Baltimore City College Glee Club, who will also take part in the programme to-day and tomorrow. They are led by J. Fred. Wenchel and comprise: First tenors, William Tingle and Charles Behn; second tenors, D. Elmer Fishach and William Bowen; first bassos, William Rogers and William Robertson; second bassos, Perley Clarke and Charles Williams.

The ball-room of the hotel will be the scene of all the meetings. Its platform is gaily decorated with American flags, and overhead, adorned with the State flag, is an appropriate motto from old Geoffrey Chaucer, "And gladly wolde he lerne and gladly teche." The Maryland flag and the national colors were unfurled yesterday by Professor Raddatz from the flag-pole at the top of the hotel and will remain there during the meeting.

Miss Harriette Brown, formerly a pupil of the Maryland State Normal School, and now a teacher in the normal school at Millersville, Pa., will give a series of readings and recitations to-day and tomorrow.

Manager James P. Shannon, of the hotel, intends to give an informal dance in honor of his guests each night after their sessions are concluded.

The Western Maryland Railroad, the Pennsylvania and the Baltimore and Ohio have each granted a rate of two cents per mile to teachers attending the meeting, and special rates will also be given them for board at the Blue Mountain House.

TEACHERS IN ATTENDANCE.

Some of the members of the Association who were registered yesterday at the hotel were:

Baltimore—Prof. Robert C. Cole, Prof. Charles F. Raddatz, John M. Dulany, William J. Blair, A. F. Wilkerson, J. Fred-

eric Wenchel, F. D. Stone, Mrs. M. A. C. Pierce, Miss Alice M. Preston, Mr. and Mrs. George W. Slocum, Miss Ethel P. Slocum. Westminster, Carroll county—James A. Diffenbaugh, Misses Ida Diffenbaugh, Carrie Monser, Jennie Reese, Katie Smith. Caroline county—M. Bates Stephens, Charles W. Byrn, Misses K. K. Hobbs, Dora Noble, Lizzie Clarke, Hattie Dukes, Minnie Downes, Lizzie E. Piffen. Pocomoke City—Mr. and Mrs. William Dale. Ellicott City—Misses Mary K. Holden, Edith Mercier, Edith R. Brian, Ida M. Brian. New Windsor—Mrs. Jennie Smith. Easton—Prof. Alex. Chaplain. Prince George's county—T. S. Stone. Chillum, Maryland—Miss Carrie Shipley. Annapolis, Maryland—President Thomas Fell, of St. John's College.

PAPERS BY DR. B. C. STEINER, MR. JAMES A. PEARCE AND OTHERS.

Blue Mountain House, Md., July 10.—A plan for securing public libraries in many of the country districts of the State of Maryland was suggested by Dr. B. C. Steiner, librarian of the Enoch Pratt Free Library of Baltimore, in a paper read today at the second day's session of the annual meeting of the Maryland State Teachers' Association at the Blue Mountain House.

"It seems to me that there might be success," said Dr. Steiner, "with a law providing that on the petition of a certain number of voters, a county election district might hold an election to determine whether it wished to have a public library. In case it voted in the affirmative, it should choose a board of directors, to whom should be paid yearly by the tax collectors, a tax amounting to one or two mills on the dollar, (the amount, whatever it be, being fixed by the general law,) such money to be used by the directors for the maintenance of a public library, free to all inhabitants of the district. The length of the directors' terms of office, and the various minor details of administration would have, of course, to be filled in.

"I believe such a law would do much toward encouraging the formation of libraries in the country districts of the State. The fact that many districts have been allowed to vote separately on local-option questions, shows that it is possible to separate district from county. As to the incorporated towns, villages and cities, the question of a law is an easy one to settle. There you already have the area of local government, and the general law can authorize that municipality to take the sense of its people on the question of establishing a public library. If that decision be a favorable one, directors may be elected, a library tax laid and the library begun. Toward the passage of some such law it is our bounden duty to labor and not to cease the effort till the passage of a State library act is secured.

"In most parts of the State the people are not as yet ready to lay a special library tax, I very well know, yet I believe this difficulty will be overcome in time. Their interest must be aroused; they must be made to feel their want, and to perceive the benefit a free library would be to them. This again is a function which can be better performed by the teachers of the State than by any other class with which I am acquainted.

"Make a beginning, even if it be but a small one. If you can only open your library for a few hours every week, do so; it is much better than not at all. If you are able to get but a few books together, they are more than none. Arouse interest and create a thirst for reading, and the rest will follow. Rome was not built in a day, and we cannot look for such a sudden awakening of interest in libraries as to give us public libraries in every part of the State in the closing years of this century, but there is no reason, if we all do our part, why there should not be between fifty and one hundred libraries in Maryland before the twentieth century begins. The people of the State have had a public school system for thirty years, and as this is now well established let us go forward and work for the establishment of the public library—the handmaid and supplement to the public school."

MARYLAND'S PUBLIC SCHOOLS.

Mr. James Alfred Pearce, of the Chestertown bar, made an address at night on "The Relation of the State to the Public Schools," in which he gave a history of the public school systems of Maryland, beginning with that which was created by the short lived State Constitution of 1864.

"We can most of us remember," he said, "when our public schools in Maryland were with few exceptions—and those in the large towns—of the most inferior character and equipment; when there was no attempt at State supervision or uniformity of instruction, when most of the teachers were so incompetent that there was ample excuse for the pitiful compensation offered them. But now all is changed. There is a useful supervision; teachers must have moral as well as mental endowments, and salaries have been placed at the rates which afford a comfortable if not a luxurious mode of living.

"Whatever may be the future policy of the State in this regard, (liberality on the one hand, niggardliness on the other,) there are not wanting men of character and intelligence, of general public spirit and fair liberality, who openly denounce the increase of taxation for the purpose of keeping up a liberal system of educating those who will one day wield the destiny of the State. Washington, in his farewell address, counselled the

providing of institutions for the diffusion of knowledge, and it is our heritage to follow up his wise and beneficient policy. The great men of the country have always clearly perceived the danger of ignorant voters, and Jefferson, Monroe and Garfield are but a few of the many who have proclaimed it from the forum of the nation."

OTHER PAPERS.

The other papers on the day's programme included:

"Latin in the Public Schools," Professor T. E. Metzger, principal of the Frostburg High School.

"Character in Education," Rev. Dr. Henry Branch, of Ellicott City.

"Evolution in Child Mind," Mr. R. A. Rowlenson, of Rolphs, Queen Anne's county.

"The Rewards of the Teacher," Mr. Henry Wingate, of Chaptico, school examiner of St. Mary's county.

"How to Teach Spelling so that the Pupils Will Become Good Spellers," Mr. George W. Craig, of Hancock.

"The Training of the Reflective Power," Prof. Elmer J. Cook, of Belair Academy.

The convention will end tomorrow night with a business meeting and the annual election of officers.

Blue Mountain, Md., July 11th.—The twenty-ninth annual convention of the Maryland State Teachers' Association closed this evening. At the closing session the following officers were elected: President, Prof. Charles F. Raddatz, of the Baltimore City College; first vice-president, J. T. Hutchins, Anne Arundel; second vice-president, John D. Worthington, Harford; recording secretary, Albert F. Wilkerson, Baltimore city; corresponding secretary, Miss Lillian W. Barkdoll, of Washington county; treasurer, Alexander Chaplain, Talbot. Executive committee—Prof. E. B. Prettyman, Baltimore city; E. L. Boblitz, Frederick, F. S. Everist, Cecil; H. J. Handy, Pocomoke; F. Eugene Wathen, Anne Arundel. This afternoon 100 of the teachers visited Gettysburg.

The success of the meetings was due to Professor Raddatz, whose untiring energy and courteous manner has added greatly to the pleasure of those who attended its sessions. Papers were read as follows: "The eloquence of Matter," Dr. S. Simpson, Western Maryland College; "The Teaching of Physiology in Our Public Schools," written by Dr. W. H. Howell, of Johns Hopkins University, was read by Dr. Warfield, resident physician here;

"Recent Pedagogic Enterprise," Prof. S. E. Forman; "Physical Education," Miss Amanda Saulsbury; "How Shall I Read It?" Prof. D. M. Long; "Instruction in Modern Language," Prof. Julius Blume; "The True Purpose of Teaching," Prof. W. S. Crouse. Mrs. Albert Rayner, Mrs. Henry Arnold, Mrs. Fitzgerald Smith, of Baltimore, who are guests of the house, gave several vocal renditions.

The Baltimore City College Glee Club has been very happy in its selection and has given much entertainment to the convention.

A lengthy discussion took place at the morning session as to the advisability of petitioning the Legislature as to the restrictive plans on the use of physiologies in the State schools. It was decided to ask the General Assembly to allow competition from all the publishers as to physiologies.

The Association of School Commissioners and Examiners of Maryland held its annual session in the State Normal School Building in Baltimore, November 26th and 27th, 1895.

Mr. F. S. Everist, the 2d Vice-President was in the chair on the first day, and Mr. Samuel Dutrow, President, on the second day, with M. Bates Stephens, Secretary.

The minutes of the proceedings as kept by the Secretary of the association are as follows:

The executive committee presented the following program, which had been previously mailed to each member:

OFFICERS:

President, - - Samuel Dutrow.
1*st Vice President*, I. S. Wilson.
2*d Vice-President*, F. S. Everist.
Secretary, - - M. B. Stevens.
Treasurer, - - George C. Pearson,
Executive Committee: { E. B. Prettyman, H. A. McComas, H. G. Weimer.

PROGRAM.

1.—Report of the Committee on Free Text Books.

E. B. Prettyman, *Chairman.*

Discussion.

E. L. Boblitz.....Frederick.
H. G. Weimer.....Cumberland.
John F. Dawson.....Greensborough.
Charles B. Rogers.....Towson.

Henry A. McComas.....Hagerstown.
Eben F. Perkins.....Chestertown.
George R. Ash.....Elkton.
John J. Higgins.....Rockville.
Henry A. Wise.....Baltimore.
Rev. Henry Branch.....Ellicott City.
Dr. James L. Bryan.....Cambridge.
E. O. Grimes.....Westminster.
Wm. H. Dashiell.....Princess Anne.

GENERAL DISCUSSION BY THE ASSOCIATION.

2.—Report of Committee on the Newell Memorial.

JOHN E. MCCAHAN, *Chairman.*

3.—Report of Committee on the Oyster Question.

HENRY A. MCCOMAS, *Chairman.*

GENERAL DISCUSSION BY THE ASSOCIATION.

4.—The Province of the High School.

George C. Pearson.....Hagerstown
Louis L. Beatty.....Centreville
John D. Worthington.....Bel Air.
George Biddle.....Elkton.
James A. Diffenbaugh.....Westminster.
Thomas S. Stone.....Aquasco.
Calvin B. Taylor.....Berlin.

GENERAL DISCUSSION BY THE ASSOCIATION.

5.—Teachers' Institutes and Associations.

M. Bates Stephens.....Denton.
Wm. Hinebaugh.....Oakland.
John O. Freeny.....Salisbury.
George A. Davis.....Westminster.
Alexander Chaplain.....Easton
Henry Wingate.....Chaptico.
F. Eugene Wathen.....Annapolis.
F. J. Maddox.....La Plata.
Wm. C. Somerville.....Prince Frederick.

GENERAL DISCUSSION BY THE ASSOCIATION.

6.—Inspection of State Normal School, November 27th, at 1 o'clock, P. M
7.—Luncheon, November 27th, at 2 o'clock, P. M.

NORMAL SCHOOL BUILDING.

BALTIMORE, MD., *November 26th, 1895.*

The Association of School Commissioners and School Examiners of the State of Maryland, met at 10.30 o'clock. In the absence of President Samuel Dutrow and 1st Vice-President

J. S. Wilson, 2d Vice-President F. S. Everist, of Cecil county, took the chair. The roll call showed an attendance of twenty-four members. The minutes of previous meeting were read and adopted. The Committee on the Newell Memorial Fund, through its Chairman, Mr. John E. McCahan, reported that, after consultation with Mrs. Newell, the Committee, acting on her suggestion, purchased a suitable slab, which was erected at the head of the grave of the late Professor M. A. Newell in Greenmount cemetery. With the exception of a small amount, the expenses attending this action have been met; more than said amount was reported by Mr. John S. Wilson as in his hands. The committee was discharged, with the thanks of the Association. The Committee on Free Text-Books, through its Chairman, Hon. E. B. Prettyman, made the following comprehensive report, which was ably discussed:

REPORT OF THE COMMITTEE ON FREE TEXT-BOOKS.

The committee appointed by this Association at its last annual meeting in November, 1894, and instructed to make a report at the present session, respectfully submit the following report:

The best method of supplying public schools with text-books has been discussed for many years past both by educational assemblies and by legislative bodies, in this, and in all other States of the Union.

Your committee has examined carefully the reports of the U. S. Commissioner of Education, the school reports, and the school laws of a large majority of the several States, and the discussions upon this subject in educational journals, and associations.

As upon all other important subjects, in our country, where free speech and independent thinking prevail, there have naturally existed wide differences of opinion. Various methods have been adopted and tested by experience. In some States text-books have been selected, purchased, and distributed to the schools by some central board or State officer, acting for the whole State. In other States these duties have been committed to county, town, or district boards. The books have been sold to the pupils, sometimes through the teachers, sometimes through local agents. Again, the books have been rented to the pupils at a fixed price per term. Generally, perhaps universally, provision has been made to furnish text-books, free of cost, to those pupils whose parents were not able to purchase them.

The State of California has tried publishing her own text-books, and has repented the experiment.

Furnishing the use of text-books and school supplies free of cost to all the pupils of the public schools, and at the public expense, is not a new question. It has been widely discussed, in this and other States, by school officers, in legislative assemblies, and by the press. The advantages claimed by the advocates of free books, and the disadvantages suggested by opponents thereof are well known, and have been carefully considered by your committee. We find that when subjected to the final test of *actual experience*, the former have been sustained, and the latter have been shown to be unfounded. Free books have now been adopted throughout the whole State by ten States, and by a very large number of districts and other sub-divisions in other States. In some towns free books have been in use for nearly twenty years.

We invite special attention to the assertion that we have not been able to find a single instance of the abandonment of the free book system after its adoption in any State or locality; on the contrary, it is the uniform and emphatic testimony of those who have tried it, that the advantages claimed have been fully realized, and that the reasons assigned for opposing the scheme have not been sustained. The cost of books has been reduced; schools have been enabled to organize on the first day of the term; new classes have been promptly formed during the year; the attendance upon schools has been increased; and, for these and other reasons, the effciency of the schools has been greatly increased. It has been shown also that books loaned free have been better cared for, and last longer, under proper regulations, properly enforced, than those sold to the pupils. In fact, the adoption of the free text-book system has invariably silenced opposition.

In our study of the text-books problem from experience in the several States, another very important fact has been demonstated, viz: that every attempt to furnish text-books to the schools by *State contract* has been a failure, inasmuch as no scheme of State contract has ever prevailed continuously in any given State without giving rise to scandals, abuse and discontent.

The opinion prevails widely and is rapidly growing that the true solution of the text-books problem lies in providing for the use of text-books free of cost to the pupil, selected and furnished by local school boards, at the expense of the State.

As the county is the unit in the school system of this State, the Boards of County School Commissioners should continue to select the text-books for the several counties; especially as for twenty-eight years text-books for the public schools of Maryland have been so selected, without the least suspicion of any indirection.

In the consideration of the question of free text-books, both by this Association and by the General Assembly, it has been invariably assumed that the necessary funds should be provided by the State, in addition to the moneys now paid out of the State Treasury to the several school boards, as apportioned by the Comptroller, under existing provisions of law. Your committee have therefore deemed it within your instructions to examine and report upon the financial aspect of the question.

We find from the last Comptroller's Report, (1894) that the entire levy of State taxes, for all purposes, in the year 1894, aggregated only "seventeen cents and three-fourths of a cent on each one hundred dollars," apportioned as follows: A tax of five and one-half cents on each $100, for the redemption of the defence redemption loan; a tax of one and three-fourths of one cent on each $100, for the redemption of the exchange loan of 1886; and a tax of ten and one-half cents on each $100 to aid in the support of public schools; the first two items providing for the payment of the public debt of the State.

We find from "Statement J" of the Comptroller's Report, that the Aggregate Funded Debt of the State, as of September 30, 1893, was $8,684,986.24; and the aggregate of the State's capital and credits from *productive* stocks and the sinking funds, was $6,025,414.43; and that by deducting the latter amount from the former, it appears that the *net debt* of the State was only $2,659,571.81, "being less than that of the previous year by $422,714.54."

This statement shows that under the operations of existing laws, the entire funded debt of the State can be paid in about six years from September 30, 1893—after which, there would be no need for the taxes, aggregating 7¼ cents on each $100, created to pay the public debt of the State.

Moreover, the comptroller informs the public that, "An examination of the character and market value of the securities held by the State, as an offset, will show that the *net debt* of the State, after making deduction at *market* value, instead of *face* value, would be very materially decreased."

It also appears that the assessable basis has increased during the past five years by $46,657,861.00.

It may be fairly inferred from the above statement of the financial condition of the State, that within four years from the present time, the whole funded debt of the State may be cancelled, under existing laws.

This Association at its last annual session, unanimously adopted the following:

"WHEREAS, The economic question of an increased rate of the State school tax has been fully discussed; Therefore, be it resolved, that it is the sense of this Association, that as the State debt is decreased, the State school tax should be increased in a like ratio, and in this way solve the question of the State school tax."

In view of the great benefits which we believe would accrue from providing by law for the use of text-books free to every pupil of the public schools; in view of expressed public opinion, and in view of the mandate of the Constitution to "establish throughout the State a thorough and efficient system of Free Public Schools," your committee recommend that this Association make respectful and earnest application to the next General Assembly for the enactment of laws providing for free text-books in the public schools.

We believe that such provision should be made, without any increase in the present rate of State taxation, even though it may necessitate the postponement for a short time, of the final payment in full of the small public debt of the State; and we submit as part of this report, drafts of bills containing such provisions.

It should be kept in mind that the Constitution of the State has provided for a *State* system of free public schools; that the rate of State taxation for all purposes is very small compared with those of city and county taxes; that, whilst under existing laws, the city of Baltimore and the counties pay a large part of the expenses of the public schools by local taxes, still it is the manifest intent of the Constitution that the State as a whole should be liberal in providing means of education for the children of *all* its citizens, without regard to local divisions.

The greatest idea embodied in our public school system, as a State system, with the county as the unit of the system, is that "the strong should help the weak." The local school taxes levied upon property in the county seat, benefit the schools in the most sequestered valleys of the county; and the State school tax levied upon property in our metropolis, and in the wealthier counties, benefits the schools in the less wealthy counties. The State school tax, like other taxes, is levied under our Constitution, upon *property*, and under our laws, is apportioned according to school population. There is no idea of *charity* in these provisions. The State desires intelligent citizens, and makes provision for universal education. It should be remembered that the rate of taxation is *the same upon every $100 worth of property*, wherever it may be located in the State.

In pursuance of the above, your committee herewith submit the drafts of two Bills for your consideration:

A BILL

Entitled an Act to repeal sections fifty-nine, sixty and sixty-one of Article seventy-seven of the Code of Public General Laws of the State of Maryland, title "Public Education," and to re-enact the same with amendments.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That sections fifty-nine, sixty, and sixty-one of Article seventy-seven of the Code of Public General Laws of the State of Maryland, title "Public Education," be and the same are hereby repealed and re-enacted so as to read as follows:

59. Each Board of County School Commissioners shall adopt and purchase text-books and other necessary school supplies for use in the public schools of their respective counties, as such new text-books and supplies are required in addition to those at present in use in the hands of pupils or owned by the Boards of County School Commissioners, out of the funds derived from the State School Tax, and, when so procured, the necessary text-books and school supplies shall be furnished, free of cost, for use in the public schools of the several counties, subject to the order of said Boards of County School Commissioners; *provided*, that text-books shall be furnished under the provisions of this Act to the several grades in the schools, successively, beginning with the first grade; and *provided* that the several Boards of County School Commissioners shall not be required to expend during any school year for said text-books and school supplies, more than one-fifth of the amounts paid to said boards, respectively, by the State Treasurer out of the State School Tax; and, *provided*, that parents or pupils may purchase their own books when they may think proper, and provided that free books shall be furnished to indigent pupils of all grades, as under existing provisions of law.

60. The several Boards of County School Commissioners shall authorize the delivery of text-books and school supplies to the various public schools in their respective counties, on or after the first day of August, next succeeding the passage of this Act, and shall provide for the issuing, safe keeping, care, and return of the same, under such rules and regulations as they may adopt.

61. The several Boards of County School Commissioners shall keep an account of all moneys expended under the provisions of this Act, and report the same in the annual financial accounts as required by law.

SEC. 2. *And be it enacted*, That all acts or parts of acts inconsistent with the provisions of this Act, be and the same are hereby repealed, and that this Act shall take effect from the date of its passage.

A BILL

Entitled an Act to regulate the levy for State purposes, for the year eighteen hundred and ninety-six, and subsequent years.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That the County Commissioners of the several counties of this State, and the Mayor and City Council of Baltimore city are hereby directed to levy the State taxes for the year eighteen hundred and ninety-six, and annually thereafter, to be collected according to law and to be apportioned as follows: A tax of three and one-half cents on each one hundred dollars to meet the interest and to create a sinking fund for the redemption of the defense redemption loan; a tax of one and one-fourth cents on each one hundred dollars to meet the interest and to create a sinking fund for the redemption of the exchange loan of eighteen hundred and eighty-six; and a tax of thirteen cents on each one hundred dollars to aid in the support of the public schools, to be distributed according to law among the several counties and the city of Baltimore, making an aggregate of seventeen cents, and three-fourths of a cent on each one hundred dollars; and the State Tax Commissioner shall levy the same State taxes on the shares of capital stock of all banks, State and National, and other incorporated institutions and companies of this State, the shares of whose capital stock are liable by law to assessment and taxation.

SEC. 2. *And be it enacted*, That all acts or parts of acts inconsistent with the provisions of this Act, be and the same are hereby repealed.

SEC. 3. *And be it enacted*, That this Act shall take effect from the date of its passage.

Your committee respectfully recommend, if this report be approved, that your legislative committee be instructed to present the accompanying bills to the proper committees of the next General Assembly, and use all proper means to effect their passage.

All of which is respectfully submitted,

E. B. PRETTYMAN,
JOHN F. DAWSON,
TOWNLEY R. WOLFE,
F. S. EVERIST,
W. H. DASHIELL,
H. G. WEIMER,
I. S. WILSON,
EPHRAIM L. BOBLITZ.

The report was presented, and, on motion of Mr. E. R. Zimmerman, of Frederick county, the same was accepted by the Association; Dr. Henry Branch moved that the report be adopted. The following persons named on the program took part in the discussion: Dr. Jas. L. Bryan, of Dorchester; E. L. Boblitz, of Frederick; H. G. Weimer, of Allegany; John F. Dawson, of Caroline; Col. Charles B. Rogers, of Baltimore county; George R. Ash, of Cecil; Dr. Henry Branch, of Ellicott City; and W. H. Dashiells, of Somerset. A general discussion followed in which Mr. F. Eugene Wathen, Mr. John D. Worthington, Col. Charles B. Rogers, Dr. Henry Branch, participated. Prof E. B. Prettyman, on behalf of the committee, recapitulated the advantages contained in their report, and in an able manner answered the objections that had been raised to the report. Mr. Jno. D. Worthington offered an amendment, but afterwards withdrew it. The following amendment was then voted on and carried: Add to section 59 "and provided that free books shall be furnished to indigent pupils of all grades, as under existing provisions of law." The first bill as amended was unanimously passed. The second bill was then passed, Col. Charles B. Rogers voting in the negative. The report as a whole was then adopted.

On motion the Association adjourned to meet tomorrow at 10 o'clock.

M. B. Stephens,
Secretary.

Normal School Building.

Balto., Md., *November 27, 1895.*

The Association met at 10.30 o'clock, President Samuel Dutrow, presiding. Minutes of preceding session were read and approved. The committee on the oyster question was not ready to report; and on motion, time was extended for one year in which to report.

The question, "The province of the High School" was introduced by George C. Pearson, of Washington county. He urged special examinations for High School teachers and suggested, the beginning of the Johns Hopkins University course for boys, and the Woman's College for girls, as the completion for a High School course. The topic was further discussed by Mr. John D. Worthington, of Harford county; Mr. George Biddle, of Cecil county; Thomas S. Stone, of Prince George's county; H. G. Weimer, of Allegany; Prof. Henry A. Wise, of Baltimore city; Prof. James A. Diffenbaugh, of Carroll; Prof. E. B. Prettyman, of the Normal School; and Dr. Henry Branch, of Howard county. By motion, the following resolutions were referred to the State Board of Education.

Resolved, That we strongly advise a thorough consideration of the distribution of the Academic Fund, so that such distribution may be equitably made, and that additional funds, if deemed necessary, may be appropriated, and that all such appropriations shall be entrusted to the various school boards of the State, for the establishment and support of County High Schools.

By Dr. Jas. L. Bryan.

Resolved, That it is the sense of this association, that the school law is deficient in not defining the limit of Primary, Grammar and High Schools, and that the law should be so amended as to set forth accurately this distinction.

Resolved, That it is the sense of this association, that the studies prescribed for teachers' first grade certificates, so far as high schools are concerned, are too low, and that a new grade of certificates known as the high school certificates, should be provided for in the school law.

By W. H. Dashiell.

Resolved, That it is the sense of this association that the academies now existing in the State of Maryland, and drawing donations from the State Treasury, should become a part of the public system of the county in which they exist, and subject to the control of the Public School Commissioners of said county.

By Geo. C. Pearson.

The following resolution was unanimously passed on the death of Mr. Berry:

Whereas, the wise dispenser of events has seen fit to remove, by death, from his sphere of usefulness amongst us, G. Worthington Berry, late examiner of Charles county, and a member of this association;

Be it resolved, That in the death of Mr. Berry, this association has lost a valuable member, and the school system of the State a faithful and conscientious public servant.

Resolved, That we bear cheerful testimony to his worth and goodness, and order that this simple tribute be entered upon the minutes of the association, and a copy thereof forwarded to Mrs. Berry.

On motion it was

Resolved, That the representatives of the press, who have attended our association, be and they are hereby thanked for their excellent reports.

The association adjourned.

M. B. Stephens, *Secretary*.

CONCLUSION.

The latter bill, of the above report, has been objected to by "The Baltimore Sun," as in violation of that part of section 34, of article 3 of the Constitution, which provides that taxes laid to pay any debt of the State, "shall not be repealed or applied to any other object until the said debt and interest thereon shall be fully discharged." There is no desire on the part of the school officers of the State to violate any provision of the Constitution, and if said objection is well taken, as I frankly admit it so appears to me, the question of the *method* of providing the funds to furnish the use of text-books free, to the pupils of the public schools, is submitted with confidence to the General Assembly, in the belief that, in the present condition of the financial affairs of the State, some way will be devised to accomplish so desirable a result.

From observation in my official visits to the different counties of the State, and from the reports of the several examiners, and of the Boards of County School Commissioners, it is manifest that the public school system is deeply rooted in the affections of the public, and that the teachers and school officers are faithful and efficient in the discharge of their important duties.

The public school system of this State has been a development, guided by experience during the thirty years of its existence, and, it is my profound conviction, from a careful comparison with the systems of the other States, that in its main features, at least, it is better adapted to meet the needs of the people of this State, especially of that large proportion living in the country, than any other system, as a whole. An examination of the tables of statistics contained in the Annual Reports of the State Board of Education, compiled from the reports of the several boards of county school commissioners, will show that the public funds have been wisely and economically administered. A large proportion of the school houses are tasteful, comfortable and well furnished. The great body of the teachers, whom it has been my privilege to meet at the institutes and associations in the various counties, in intelligence, refinement, cultivation, character, and progressive spirit, will compare very favorably with any others I have met, whether in the country or in the cities.

In my judgment, the greatest and most pressing needs of the schools are free text-books, to make them *free schools* in every respect, in accordance with the spirit of the constitutional provision, and the creation of a new school officer under the title of Institute Conductor. These recommendations will be found in detail in previous reports, and they are again earnestly and respectfully renewed.

It is a hopeful sign, that in some parts of the State, public spirited citizens have shown their appreciation of the schools by material aid, in contributions for school libraries, and, in a few instances, for school buildings, as mentioned in the reports of the School Boards. It is "a consummation devoutly to be wished," that this method of exhibiting interest in the schools may increase and extend.

I beg to tender to all, with whom my duties have brought me into association, my heartfelt thanks for their invariable courtesies and kindness.

E. B. Prettyman,
Secretary State Board of Education.

REPORT

—OF—

School Commissioners

—OF—

THE COUNTIES.

ALLEGANY COUNTY.

HON. E. B. PRETTYMAN, *Secretary State Board of Education.*

Dear Sir:—I have the honor to submit herewith the Annual Report of the Public Schools of Allegany County, for the year ending July 31, 1895.

The educational events of another year have passed into history. A careful survey of the field and a faithful comparison of the present with the past status of school affairs, discover gratifying results. There were no sweeping reforms instituted, no startling enterprises projected, but the usual educational forces were so directed and concentrated as to insure steady and positive advancement.

Very truly yours,

H. G. WEIMER, *Secretary.*

SUMMMARY OF SCHOOL STATISTICS.

FOR SCHOOL YEAR ENDING JULY 31, 1895.

	1895.	1894.
Number of school houses owned by the County, 96; rented, 4; total, 100	100	97
Number of rooms occupied when the attendance is largest.	180	168
Number of male teachers (principals), white, 29; colored, 1; total, 30	30	25
Number of female teachers (principals), white, 67; colored, 3; total, 70	70	67
Number of male teachers (assistants), colored, 1; total, 1	1	
Number of female teachers (assistants,) white, 83; total 83	83	82
Total, white, 179; colored, 5	184	177
Number of fenced lots	40	38
Number of schools having out-buildings	100	96
Number of schools having sufficient blackboards	98	97
Number of schools having good furniture	97	97
Number of terms schools were open—white, 3½ terms; colored, 3½ terms.		
Number of different pupils for the year—white, 8,582; colored, 232; total, 8,814	8,814	8,342
Number of pupils in average attendance, white, 5,556; colored, 129; total, 5,685	5,685	
Number of official school visits paid by examiner	203	185

Furniture	3 78	
		$2,487 25

CECIL COUNTY.

ELKTON, CECIL CO., MD.

PROF. E. B. PRETTYMAN,

My Dear Sir:—Herewith find a statement of the Schools of Cecil County. In a large degree it explains itself.

The insurance embraces all houses and furniture, and covers a period of five years from January 13, 1895.

When the judges appointed the School Commissioners, their term began in January, and it has been our custom to pay their per diem at the close of the year; now that the Governor appoints, the term begins in August, and we have deemed it best to settle with them to July 31, 1895. In this way Messrs. Everist and Ash have been paid during this school year for twenty months, *i. e.*, January 1, 1894 to July 31, 1895. They have not been paid over one hundred dollars for any twelve months, this explains the per diem being over $300.00. During the year we made a change in some of our books; for the old books exchanged we received a gross sum. I have charged to schools the amount of bill rendered by Messrs. Mediary & Co., as sent to each school—while I have charged myself with the amount actually paid to Messrs. Mediary & Co.

We have trouble to secure eompetent colored teachers; in fact do not get them, are forced to take the best we can get.

Our scholars have decreased owing to the Tome Memorial School.

Yours truly,

GEORGE BIDDLE.

SUMMARY OF SCHOOL STATISTICS.

FOR SCHOOL YEAR ENDING JULY 31, 1895.

	1895.	1894.
Number of school houses owned by the county, 88; rented 5; total, 93	93	93
Frame, 78; brick, 10; stone, 5	93	
Number of rooms occupied when the attendance is largest	120	120
Number of male teachers (principals), white, 10; colored 3; total, 13	13	12
Number of female teachers (principals), white, 69; colored, 12; total, 81	81	80
Number of male teachers, (assistants), white, 1; total, 1	1	
Number of female teachers, (assistants), white, 33; colored, 3; total, 36	36	35
Total, white 113; colored, 18; total 131	131	131
Number of fenced lots	48	
Number of schools having out-buildings	93	
Number of schools having sufficient black-boards	93	
Number of schools having good furniture	93	
Number of terms schools were open—white, 3 7-11; colored, 3 7-11; or September 1, 1894 to June 2, 1895		
Number of different pupils for the year—males—white, 2,210; colored, 367; total, 2,577; females—white, 2,223; colored, 360; total, 2,583	5,160	
Number of pupils in average attendance, white, 2,701; colored, 290; total, 2,991	2,991	
Number of pupils over 16 years of age—white, 138; colored, 19; total, 157	157	
Number of official visits paid by examiner, 168 to white, and 29 colored	197	

NUMBER OF PUPILS.

		Fall Term,		Winter Term.		Spring Term.		Summer Term.	
On Roll	white,	3,368	3,885	3,626	4,230	3,389	3,965	2,832	3,277
	col'd,	520		604		576		445

Other purposes	57 58	
		$ 2,749 10

KENT COUNTY.

PROF. E. B. PRETTYMAN,

Secretary State Board of Education.

You have herewith the Annual Report of the condition of the Schools of Kent, for the year eighteen hundred and ninety-five to July 31.

Despite the earnest efforts of the Commssioners and the Examiner, the qualification of district school trustees has failed in a number of cases, and many of the schools are without a legal board of trustees. This is largely owing to the period of the year at which the Trustees are appointed, and I renew the suggestion made in the last report that the County Board in each County be authorized by law to fix the day for the annual appointment of Trustees in each county.

During the school year new and substantial school buildings were erected at Rock Hall, and an additional assistant teacher added to the school.

Respectfully submitted,

EBEN F. PERKINS, *Sec.*

SUMMMARY OF SCHOOL STATISTICS.

FOR SCHOOL YEAR ENDING JULY 31, 1895.

	1895.	1894.
Number of school houses owned by the County, 53; rented, 1; occupied 10; total, 64	64	65
Frame, 61; brick, 3	64

		$7,502 02

PRINCE GEORGE'S COUNTY.

Upper Marlboro, Md., *September* 13*th*, 1895.

PROF. E. B. PRETTYMAN,

Secretary State Board of Education.

Dear Sir:—We respectfully submit herewith the Report of the Public Schools of Prince George's County for the year ending July 31st, 1895.

We can add but little information to that given in the accompanying tables. The schools were kept open for ten months, and did fairly good work. The teachers were generally acceptable to the people, and as a body really efficient workers, humbly earning the money paid them.

The school question is certainly a live one here, rather too much so, since the resources of school and county have been severely taxed to meet the many demands made on them by the people.

We closed the schools with a small cash balance; with no outstanding debts. So we are satisfied with the results of the past year, and hopeful for the future.

With a sincere desire for the continued success of our school system, and with a firm belief in its great advantages to the people of the State, we are,

Respectfully yours,

WM. W. DUVALL, *Pres't*,
H. H. SASSCER,
J. S. WILSON.

SUMMMARY OF SCHOOL STATISTICS.

FOR SCHOOL YEAR ENDING JULY 31, 1895.

	1895.	1894.
Number of school houses owned by the County, 81; rented, 1; total, 82	82	81
Frame, 80; brick, 1	81	
Number of rooms occupied when the attendance is largest.	98	95
Number of male teachers (principals), white, 12; colored, 8; total, 20	20	19
Number of female teachers (principals), white, 47; colored, 18; total, 65	65	70
Number of male teachers (assistants), white, 1; colored, 1; total 2	2	
Number of female teachers (assistants), white, 14; colored, 1; total, 15	15	14
Total, white, 74; colored, 28; total, 102	102	103
Number of fenced lots	8	8

QUEEN ANNE'S COUNTY.

Centreville, Md., *October 1st*, 1895.

PROF. E. B. PRETTYMAN,

Dear Sir:—I herewith submit my report of the Public Schools of Queen Anne's County, Maryland, for the year ending July 31st, 1895.

The progress of our schools is very satisfactory, the school houses are in good condition and the finances are good.

Very truly yours,

L. L. BEATTY.

APPENDIX.

EXTRACTS FROM THE BY-LAWS

—OF THE

STATE BOARD OF EDUCATION.

The following classification and schedule of studies shall be observed in all Primary Schools, and in those classes of graded and High Schools to which they are applicable:

First Grade.

1. Reading and spelling from Chart or Blackboard; reading or spelling Primer, or First Reader. 2. Writing capitals and small letters from copies on blackboard. 3. Counting objects. 4. Writing figures as far as 100. 5. Adding, subtracting, multiplying and dividing by 2, 3, 4, orally, and by written work. 6. *Drawing.* 7. *Object lessons.* 8. *Singing.*

Second.

1. Reading and spelling to the end of Second Reader. 2. Writing words and sentences from blackboard and from Second Reader. 3. Writing and reading figures as far as 1,000. 4. Adding, subtracting, multiplying and dividing by 5, 6, 7, 8, 9. Mental arithmetic. 5. *Drawing.* 6. *Object lessons.* 7. *Singing.*

Third.

1. Reading and spelling to the end of Third Reader. 2. Copying on slates the lessons of the Reader, and exercises in Dictation. 3. Spelling, one-half of Primary Spelling-Book. 4. Writing and reading figures as far as millions. 5. Addition, subtraction, multiplication and long and short division. Mental Arithmetic. 6. Writing in Copy-Book, Nos. 1 and 2. 7. Language lessons begun. 8. Oral lessons in Geography, including the Maps of Maryland and the United States. 9. *Drawing.* 10. *Object lessons.* 11. *Singing.*

Fourth.

1. Reading and spelling to the end of Fourth Reader. 2. Primary Spelling-Book completed. 3. Copying of lessons in Fourth Reader. Reading from slates the lessons copied; Dictation and reproduction exercises. 4. Elementary Arithmetic, through Fractions. Mental arithmetic. 5. Writing Copy-Book, Nos. 3 and 4. 6. Primary Geography, with Oral lessons and Map Drawing. 7. Language lessons continued. 8. *Drawing.* 9. *Object lessons.* 10. *Singing.*

Fifth.

1. Reading and spelling, Fifth Reader, alternate with History of Maryland and of the United States. 2. Writing lessons in Fifth Reader from Dictation. 3. Spelling—Advanced Spelling-Book, 4. Arithmetic, 2d book

---

☞Subjects in *italics* are recommended, but are not obligatory.

completed. Mental Arithmetic. 5. Writing—Copy-Book, No. 5. 6. Language lessons continued, with Composition and Letter Writing. 7. Grammar—Parsing and Analysis of easy sentences 8. Advanced Geography. 9. Elementary Physiology. 10. *Drawing.* 11. *Singing.* 12. *Needle-work* and *Domestic economy* (for girls.) 13. *Elements of Agriculture*, when ordered.

Sixth.

1. Reading and spelling to end of Fifth Reader, alternate with History of Maryland and of the United States. 2. Spelling—Advanced Spelling-Book completed. 3. Practical Arithmetic completed. Mental Arithmetic. 4. Writing—Copy-Book, No. 6. 5. Advanced Grammar. 6. Geography completed. 7. Lessons in Composition and Letter Writing. 8. Physiology completed. 9. *Drawing.* 10. *Singing.* 11. *Needle-work* and *Domestic economy* (for girls.) 12. *Elements of Agriculture.*

Time Table.

Each grade may have four daily recitations, as follows:

1st.	1 lesson of 15 minutes and three of 10 minutes each					—45	minutes.
2d.	"	"	"	"	"	—45	"
3d.	"	"	"	"	"	—45	"
4th.	2 lessons of 15 minutes each and 2 of 10 each					—50	"
5th.	"	"	"	"	"	—50	"
6th.	1 lesson of 20 minutes and 3 of 15 minutes each					—65	"

The available portion of the remaining hour, and the time that may be gained by the absence of all pupils in any grade, may be spent in general exercises, or in studies above sixth grade, when there are pupils sufficiently advanced.

High Schools.

8. The High School course shall begin with the completion of the sixth grade, and may include all the studies required for admission into the Freshman class at college.

9. No school shall be classed as a High School unless it contains at least two grades higher than the sixth.

10. The following schedule of studies is recommended for adoption in the High Schools and the higher classes of graded schools.

Seventh.

1. Arithmetic reviewed. 2. Algebra (Wentworth's or Robinson's) through Equations of the first degree. 3. Geometry (two books of Wentworth, or an equivalent)—Geometrical Drawing. 4. Physical Geography. 5. English Grammar—Morris's "Elementary Lessons"—Parsing and Analysis of "Paradise Lost," Book I. 6. Practical exercises in Composition. 7. English History—Green's "Short History." 8. Latin Grammar and Reader. 9. Book-keeping. 10. Physiology—(Martin's Human body.)

Eighth.

1. Algebra through Equations of the second degree, and Progressions. 2. Geometry, Plane and Solid, completed. 3. Natural Philosophy. 4. Rhetoric. 5. Modern History. 6. Latin—Cæsar "De Bello Gallico," three books. 7. Physiology completed.

Ninth.

1. Plane Trigonometry and Surveying. 2. Chemistry. 3. Botany. 4. Ancient History. 5. English Literature (Sharw's). 6. English Language (Lounsbury). 7. Elocution. 8. Latin—Virgil's Æneid, four books; Sallust —"The Conspiracy of Catiline."
